WORK HISTORY

SOFTWARE DEVELOPER

12/2021 to CURRENT

It'sWorthMore.com, LLC | Sanford, FL

- Developed software for both desktop and web applications.
- Collaborated on stages of systems development lifecycle from requirement gathering to production releases in an Agile work environment.
- Planned and developed interfaces that simplified overall management and offered ease of use.
- Revised, modularized and updated old code bases to modern development standards, reducing operating costs and improving functionality.
- Designed intuitive graphical user interfaces to improve user experience.
- Assessed and restored software related issues with operating systems such as Windows, and macOS

PROJECTS

Smoothie Shop Search & Sort DevJamil - Portfolio

- Inspired by macOS, my DevJamil - Portfolio project was built from the

ground up to showcase my skills with the React front-end library in a desktop style user interface.

- Using computer science concepts, this C program scans in coordinates of smoothies shops from a file, sorts & ranks them based on distance from the user, and allows users to search for stores using coordinates.
